**BOX CULVERT REPLACEMENT ON NH ROUTE 3A IN HEBRON**  
**PROJECT WILL REQUIRE SINGLE LANE TRAFFIC FOR 12 WEEKS**

The New Hampshire Department of Transportation announces work is scheduled to begin Wednesday, December 12, 2001 in Hebron on the replacement of a box culvert over George's Brook on NH Route 3A.

This culvert replacement project will require single lane traffic and is expected to take 12 weeks to complete. Alternating one-way traffic will be controlled with a temporary traffic signal. Warning signs and concrete barriers will assist motorists through the work zone.

The NHDOT's Bureau of Bridge Maintenance will perform this work.
